

where our units of five and the five of our machine guns checked the enemy, whose losses were serious. Some prisoners remained in our hands.

On the left bank of the river, a German machine gun attack was repulsed by our units. The north of the river, and two machine gun attacks upon the trenches on the southern slope of Dead Man Hill, occupied by us yesterday, resulted in complete failure.

"To the west of Point-a-Mousses, a detachment of the enemy which was endeavoring to take possession of our positions to the north of Fleury was dispersed by our infantry fire."

The recent fighting on the front south of the Somme left hundreds of German bodies lying in the open between the opposing lines. The Havarais defended their position with the greatest stubbornness, and at many places the French advanced only after wiping out whole companies of enemy soldiers.

UTTER EXHAUSTION FORCES 1,000,000 MEN TO QUIT BATTLEFIELD

LONDON, Sept. 18.—According to the reports issued in London and Berlin, more than 1,000,000 men have fought to utter exhaustion in the mighty battle of the Somme. The British report that twenty-nine divisions, a total of 550,000 men, have been withdrawn from the battle line because they could fight no more without a rest.

German reports that not a fresh division is left on the British front. If this is true more than 500,000 British troops have fought to exhaustion, although the London War Office reports say that fresh troops are constantly taking the places of the tired soldiers.

A steady downpour of rain has halted the British operations on the Somme front and there has been no important fighting since yesterday.

Gen. Haig reported this afternoon that British troops entered enemy trenches at Richenbourg Laboue at three separate places, taking prisoners and inflicting casualties.

The rainfall was general along the whole British front in Flanders and France. The British troops spent the night in consolidating their new positions northwest of Bouleaux wood, where the capture of the "Quadrilateral work" yesterday enabled Haig's men to advance 1,000 yards on a front of a mile. This gain was another important advance in the encircling of Cambrai, whose capture is now considered but a matter of a few days.

Following is the text of to-day's British War Office report:

"Heavy and continuous rain has fallen during the last twenty-four hours. The general situation is unchanged.

"In the neighborhood of Richenbourg L'Arrou (northwest of La Bassée), we entered the enemy's trenches at three places, capturing prisoners and a machine gun and inflicting many casualties. Our casualties were very slight.

"Since last night's report five more of our aeroplanes have failed to return.

Philip Gibbs, writing in the Chronicle from the Somme front, says German losses since Friday have been frightful, and that the whole battlefield along High Ridge to Delville Wood and Ghinchy is "one great graveyard."

Primary election polls will be open to-day from 3 P. M. to 9 P. M. (Enrolled voters of every party may vote on official ballots for their choice for party nominations.

BULGARS IN FLIGHT GIVE UP MONASTIR, IS ATHENS REPORT

Franco-Russian Troops Capture Florina and Continue Pursuit of Fleeing Foe.

ADVANCE TWENTY MILES

Salonica Despatches Say Allies Will Soon Be in Serb Fortress City.

LONDON, Sept. 18.—An Athens despatch to the Exchange Telegraph Company says that information received there indicates that the Bulgars are beginning the evacuation of Monastir.

It is said the Bulgarian archives are being hastily transported to Uskub.

PARIS, Sept. 18.—A most violent battle is going on between the Italian and Bulgarian east of Hetea Mountain in Macedonia, said an official statement issued here to-day.

The Bulgarians have made two counter-attacks against the Serbians but gained no success. The Bulgarians and Germans have not attempted a counter action against the French troops which captured Florina. There is no change on the Struma front.

Allied troops are within sight of the city of Monastir, pressing close on the heels of the retreating Bulgarians, according to messages received to-day from Salonica. Possession of Monastir, said now to be assured to the allies, will place the entire Bulgarian-German line in peril.

The Serbs can be checked in their heading advance, and the British, French and Russian contingents are having difficulty in keeping pace with them.

Florina, on the Greek frontier, fifteen miles south of Monastir, on the Salonica-Monastir railroad, out of which the Bulgarians drove the allies late in August, was taken by a wide encircling movement of the French and Russians, who crushed the Bulgarian right flank and pressed them back in disorder upon Monastir. The allies already have advanced twenty miles.

The Serbs drove forward impressively and would not be denied. The Bulgarians sought to make a stand on the right bank of the Curan, at the southern bend made by the great loop of the stream, but were conclusively defeated and fled, the Serbs forcing the river in the neighborhood of Hrod, threatening Monastir from the southeast.

So well ahead of Florina are the allies that Gen. Cordoulier, the French advance commander, has established headquarters there for the direction of operations and has ordered his troops to continue the pursuit of the demoralized Bulgarians without halt.

German Five Two Belgian Towns.

LONDON, Sept. 18.—The Germans have fired the Belgian towns of Jemeppe-sur-Sambre and Moutier-sur-Sambre (18,000 each) because enemy flyers dropped bombs in their vicinity, said a Berlin wireless dispatch to-day.

RUSSIAN REPULSE NORTH OF HALICZ, CLAIM OF BERLIN

Advance of Czar's Troops at Ludowa Admitted—Hindenburg to Eastern Front.

BERLIN, Sept. 18.—Teutonic counter-attacks have had further success in pushing back the Russians along the Narayovka River northeast of Halicz, it was officially announced to-day.

In the region of Ludowa the Russians obtained some advantages. In the region of Kirtshaba, in the Carpathians, Russian attacks were repulsed.

North of the Karosze bridgehead the Germans stormed Russian positions, taking 1,542 prisoners and capturing seventeen machine guns.

LONDON, Sept. 18.—The wireless press to-day gave out a Berlin despatch quoting the Stuttgarter Zeitung to the effect that the German Great General Staff had been moved from the western to the eastern front.

(Since the appointment of Field Marshal von Hindenburg as Chief of Staff it has been reported that he desired to leave in France and Belgium sufficient men to hold the line and devote his energies to the east, for he is credited with the belief that it is on this front that the first conclusive victory must be won.

Last week he returned from France to the eastern front. It was also reported that Emperor William, Chancellor von Bethmann-Hollweg and representatives of Austria-Hungary, Bulgaria and Turkey were at the eastern headquarters for a conference which was to decide the shaping of the campaign in the east.)

HEAVY LOSSES TO AUSTRO-GERMANS IN ATTACK IN GALICIA

PETROGRAD, Sept. 19 (via London).—Stubborn fighting is in progress between Russian and Austro-German troops in the region of the River Narayovka, in Galicia, says the official statement issued to-day by the Russian War Department. All the Teuton attacks, the statement adds, were repulsed with heavy losses.

The text of the official statement says:

"In the direction of Vladimir-Volynsk, in the region of Dobrudja, the enemy launched an attack against one of our advanced positions, but was repulsed by our machine-gun fire. Ten riflemen of our platoon who escaped injury counter-attacked under command of the sergeant Major. Killed some Germans, took one prisoner and put the others to flight. The sergeant Major was seriously wounded.

"In the region to the west of Brody our volunteers and patriots surprised in the night an enemy advanced post without firing a shot, and in a bayonet engagement killed twenty men and took prisoner one officer and twelve men.

"In the region of the River Narayovka stubborn battles are continuing. Here in Sunday's battle the gallant regimental commander, Col. Gublin, and Lieut. Col. Semichoff were killed."

10,000 ITALIANS TO BE DEPORTED FROM GERMANY AS ACT OF REPRISAL

BERNE, Switzerland (via Paris), Sept. 18.—It is reported from the German frontier that the German Government intends to expel 10,000 Italians in reprisal for the treatment of Germans in Italy. The Italians will be sent out of Germany on special trains by way of Switzerland. They include many women, children and old men of the poorer classes.

ATTACKS OF ALLIES AT FLORINA CHECKED, IS BULGAR REPORT.

SOFIA, Sept. 18.—The repulse of all allied attacks around the Greek town of Florina, was announced by the Bulgarian war office to-day.

Bulgarian troops are continuing their advance against the Roumanians in Dobrudja and have captured the Black Sea port of Mangalia, 23 miles south of Constantza.

HOLLAND'S QUEEN GIVES BELLIGERENTS WARNING

Armament of the Country Increased to Resist Attack on Its Neutrality.

THE HAGUE, Sept. 18.—Queen Wilhelmina struck a war-like note in her speech at the opening session of Parliament to-day.

She told Parliament that important steps to strengthen the Dutch forces to resist any attack on the country's neutrality are being taken and that the supply of war materials and munitions is growing. She warned belligerents on both sides that Holland is prepared to resist such an attack.

"We will fulfill the duties international law imposes upon neutrals," said the queen. "At the same time we have strongly decided to defend our independence against whomsoever assaults it."

WILLIAM BUTLER, WHO IS UNDER ARREST AS ONE OF BIG BLACKMAILING GANG

MORE RICH VICTIMS OF BLACKMAIL GANG FOUND BY POLICE

(Continued from First Page.)

his part, made out a check for \$5,000 on a Boston bank and Mrs. Klipper gave up her purse and all her diamonds as her share of the payment for protection. Later they demanded and received \$500 from her.

HOW SHE WAS COMPELLED TO "KICK IN."

Mrs. Klipper's fright and protest against the "holdup" in the hotel were met by Crocker with, "There doesn't seem to be any way out of it except for both of us to kick in."

When she threatened later to tell her story to the Federal authorities she was led to go to Canada on a promise of the return of the money she had paid. Once there, she was held a prisoner at a hotel in Montreal for six weeks and then deserted.

Crocker, who had represented himself to Mrs. Klipper as Alvin Collins, a millionaire from Boston, so duped her that she long refused to believe he had had any part in the swindle. It was not until he was arrested in Tampa, Florida, for stealing a \$1,000 diamond ring from a woman who had been fascinated by him that she realized his duplicity.

Mrs. Klipper identified Butler yesterday in the Federal Building in Philadelphia, and as soon as she had sworn to the affidavit in the warrant for his arrest she was escorted to the train for Chicago for appearance against the swindlers to-day. Butler refused to answer any of the questions put to him by Agent Garbano of the Department of Justice and Assistant United States Attorney John C. Knox of this city, special Government attorney.

MURDER SAID TO FIGURE IN OPERATIONS OF GANG

Search of the rooms of the Chicago prisoners has disclosed what the Government agents characterize as the paraphernalia of an elaborate racing swindle, including fake newspaper clippings, counterfeit letter headings and other books for the jangling of wagers on the horse.

In the background of the revelations of the last few days lies a murder which is charged to a member of the gang. The crime occurred last June in a summer camp in Jefferson County, Colorado, not far from Denver. Several alleged members of the gang were there for an outing after the fleeing of a Denver man of \$5,000 by the badger game. In the "pay off" it is said that one William Turner, alias Wilson, held out \$1,500 on James Brown. Several weeks later Brown discovered he had been robbed, hunted up the camp and shot Turner dead. None of the gang made any effort to detain him and he took a train for the East.

MRS. KLIPPER APPEARS AS A WITNESS AGAINST BLACKMAILING GANG

CHICAGO, Sept. 18.—Mrs. Regina A. Klipper of Philadelphia, who was blackmailed in New York and is the Government's chief witness against the band of swindlers who are alleged to have made more than \$1,000,000 in hush money from wealthy men and women all over the country, arrived here to-day to appear against the accused. Several weeks later Brown discovered he had been robbed, hunted up the camp and shot Turner dead. None of the gang made any effort to detain him and he took a train for the East.

ITEMS FOR INVESTORS.

American Agricultural Chemical Company—Quarterly dividend of 1-1/4 per cent. on common stock, payable 14 to stock of record Sept. 22. This is an increase of 1-4 of 1 per cent.

Interborough Rapid Transit Company—Report for fiscal year ended June 30 shows 25-1/2 per cent. earned on common stock as compared with 23-1/2 per cent. the previous year.

SENIOR GOLFERS START AT APAWAMS WITH AN ENTRY OF 400

60-Year-Old F. R. Prentice Leads Early Qualifiers With 93 Score.

By William Abbott.

APAWAMIS GOLF CLUB, Rye, N. Y., Sept. 18.—The annual senior golf tournament, the most unique sporting event in the United States, started here to-day with an entry list of 400 men from all walks of life, bankers, merchants, lawyers, doctors, insurance presidents, and just plain golfers.

The only qualification necessary to compete in the tournament was that each player must be at least 60 years of age, the age limit, however, failed to discourage the "old boys" as they trudged over the difficult course, up and down hills, and battling against the traps with the spirit of twenty-year-olds. The gray heads ranged all the way from fifty to more than eighty.

The starting field was so large that only half could compete to-day, the other division being held in reserve for Thursday.

The opening round was eighteen holes of medal play, with prizes offered for the best brass and net scores. Many of the first cards in total around the 100 mark, a mighty fine showing for veterans on these links.

F. R. Prentice, sixty years old, who comes from the Mahanah Club, led the early field home with a net score of 93.

It was nothing for this old boy to negotiate 48-yard holes in five strokes. Mr. Prentice hit a remarkable

ANOTHER MILLION SHARE DAY IN STOCK MARKET

In a strenuous session of evenly matched trading between bulls and bears to-day the stock market scored just over the million mark, total transactions amounting to 1,064,090 shares, but with comparatively small change in prices. Most of the prominent issues swayed back and forth within a point or two of range, closing near the previous day's level.

United States Steel common succeeded in climbing a fraction to a new record of 109, but closed off at 108-1/4. International Nickel and Continental Can were the liveliest jumpers of the day, the former going up three points and the latter six. All the metal stocks were strong. Despite heavy selling by bears, the market maintained a high average and the closing was steady.

Closing Quotations.
